Experience & Education

Software engineer with a foundation in accounting, focused on building reliable, user-friendly business applications.

Professional Experience

Full-Stack Software Engineer (Part-Time)

Jan 2024 – Present

Redeem Innovations LLC · San Francisco Bay Area

- Developed and deployed client websites using WordPress + Elementor with custom React components for dynamic functionality.
- Designed database schemas and enhanced RESTful APIs, improving performance and integration reliability.
- Implemented Stripe and WooCommerce payment gateways, managing full e-commerce operations.
- Created UI/UX prototypes in Figma and delivered visual assets in Photoshop and Illustrator.

Accounting Data Analyst

Feb 2024 – Present

Northgate Environmental Management · Oakland, CA

- Engineered data pipelines processing 500+ monthly transactions, reducing reconciliation errors by 20% through automated validation logic.
- Architected scalable data models and interactive dashboards using advanced Excel and SQL-like structures, mirroring relational database design patterns.
- Built cross-departmental reporting systems with data visualization layers for real-time financial performance monitoring.
- Implemented QA-driven testing workflows for data integrity, systematically identifying anomalies and optimizing output accuracy.

Accounting Manager

Jul 2017 – Apr 2023

Aghsan

- Architected end-to-end financial operations (AP, AR, procurement, payroll), designing scalable processes with built-in data validation layers.
- Deployed financial technology tools and automated reporting workflows, cutting manual reporting time by 40% and improving data accuracy.
- Led a cross-functional team, establishing data-driven practices and standardized operational frameworks across the finance organization.
- Developed compliance dashboards and reporting infrastructure to enhance transparency and real-time data visibility for stakeholders.

Internal Auditor

Aug 2011 – May 2017

Wadi Degla Clubs Company

- Performed systematic audits across multiple departments, applying data analysis techniques to identify inefficiencies and optimize operational workflows.
- Executed compliance and risk assessments, strengthening internal control systems through automated checks and structured reporting pipelines.
- Delivered comprehensive audit reports with actionable insights, directly improving management decision-making and organizational transparency.
- Collaborated with cross-functional teams to re-engineer business processes, improving data accuracy, operational consistency, and system reliability.

Education

App Academy — Full-Stack Software Engineering
San Francisco, CA

- **Front end:** React (Hooks, Context), Redux, React Router, HTML5/CSS3, responsive design.
